

## Legions of War

The 21st century paved the way for the emergence of power humankind never imagined possible. Driven by pure greed and lust for ultimate governance, the carefully thought out plan to unseat every nation in dominion led to the death of millions of people, first through a pandemic, then followed by the most terrifying war known to men, the **'Adimiro's Plague.'**

Six centuries later, the same man that drove planet earth into utter chaos is now revered and worshiped like a celestial by his kind and sits at the top of the food chain.

During a time in his six centuries-long reign, the **'Great Knight Adimiro'** discovered the greatest power a mere mortal can have- the ***Elixir***. It resulted from endless experimentation on time travel and the quest for immortality. However, only the Great Knight can harness the power of the ***Elixir*** to its full potential, thus making him **'The Undead.'** ***Elixir*** is a time-bending portal that enables humans to traverse galaxies, steal knowledge, and conquer through warfare. And because of this power, humans have been the most feared race in the entire universe as they extended their realm called **'The Empirious Dominion.'**

The Great Knight fathered many children in his lifetime, all biologically engineered, born, and bred by his finest harem. They are equipped with superhuman powers and are unique in their own way. These sons, dubbed the **'Golden Horde,'** are now leading their battleship across the galaxy, conquering worlds, bringing honor to the human race and exaltation to the Great Knight name. That is until a coup ensued in the year 2666- the **'Blasphemy of the Damned.'**

Like everything in the world, nothing is created into perfection. Flaws determine change and advancement. And this imperfection is what catapults many of the Great Knight children to go against him and try to kill their own father to take reign. It is believed that their mind was hazed every time they entered the ***Elixir***. This weakened link in the wires of their brains left them vulnerable to vultures, often mad and cunning alien races, and implants illicit pieces of information to corrupt their minds. The schemes worked, for they were able to pollute many of the Great Knight descendants to do their bidding. These fallen sons fight for the ultimate seat of power, and they will go to great lengths to fulfill their destiny. Now more than ever, the human race must stand together to fight the common enemy.

Due to the recent events, the Great Knight fortified his castle defenses. He called his remaining loyal offsprings **'Omega Knights'** an elite group of loyals in charge of protecting humanity across the galaxy. In their midst, they find themselves warring against their denounced brethren, now called the **'Alpha Horde.'** And while some of the Omega Knights still hope to bring back their fallen brothers into the Golden Horde once more, they must confront and kill every alien race controlling them. That is at least until time decides they've lost the cause- and time, they discovered, is their greatest adversary.

For now, they have no choice but to dance to the music of death and war.
