

FAQ

Where can I buy omega-knight NFT and be a part of the community?

Minting date and website will be published soon. We will post the details ahead of time on our Discord server and Twitter account. The whitelist will be reserved for early adopters and the fan base community. After the mint is over, there will be an option to trade on secondary market platforms.

How much does a minting of omega-knight NFT cost? The cost of omega-knight NFT will be determined 24 hours before the mint date.

How was the omega-knight NFT created?

Each omega-knight has been constructed algorithmically by a special script that basically mixes a variety of hand-drawn properties with different possibilities.

How to get whitelisted ?

You can get whitelisted by inviting new members into our discord server and by staying active and help others inside our community.

you can find more about our whitelist requirements in our discord server #whitelist-requirements.

Are there benefits to holding multiple omega-knight NFT?

Yes, there will be air drops in the future and fair votes.

So, each omega-knight NFT that you hold will give you more voting power in the community and get you more benefits.
